

October 11, 2025: On the Old Man's Other Admissions

The old disaster of Donald Trump had more messages for us today when we went out for our errands:

Donald Trump is exhibiting this sign language to me (very clearly) as a taunting element to our life to cause us to hate him for his actions.

But, besides the point that
a person that is threatening to kill me, and
then threatening to arrest me for opposing him for threatening to kill me,
Is governing the executive branch of the United States government into a chaotic, disgusting,
cesspool of threatening corruption -

That person is not simply issuing mindless threats.

Donald Trump is exhibiting to us his mindset, his ambitions, and his mentality.

Today's messages also distinctly included the images of a man,
Driving a vehicle of white (yang, firmness) with a peace logo on it,
While he rifles through a bag of goodies with a logo of the Israel NSO Group spy program.
(The vehicle also had custom plates and stickers showing imagery of *barred and bowing dogs*)

This is a reference to the fact that Donald Trump, and Elon Musk, are using these advanced spy tools to illegally spy on the people of the world as they run threatening and illegal criminal patrols around their targets' lives - all while operating the seemingly legally-protected national security tools of the United States government. (Treasonous traitors)

I am continuing to express publicly the messages that their team privately drill into my world. For whatever egotistical purposes it serves in their evil minds, these forces have been and are continuing to express their evil intentions to me as a form of oppression inside and around our home. I believe that these forces count on me to 'express' their intentions for them in a way that causes more terror - because they are, in fact, terrorists.

I continue to express these messages as public notice to the people of the world that these are the types of people that are currently running the USA military. These are the type of people that are paying themselves with the tax dollars of America,

Trump directs Hegseth to use 'all available funds' to pay military workers amid shutdown

While mass-firing others that they perceive as outside of their private club:

The White House budget office said Friday that [mass firings of federal workers have started](#) in an attempt to exert more pressure on Democratic lawmakers [as the government shutdown continues](#).

And as you can see by these headlines: They are exactly the same kind of people that will illegally spy on an innocent American family, threaten to kill them as enemies, and then threaten to arrest them for recognizing the danger of having a government that has turned to oppose the people that it was supposed to represent. (25th Amendment)(Donald Trump is stumbling drunk and gone out of his mind on power)
